TASTE OUR SELECTION OF BLENDED COFFEE

Our blends from Guatemala and Ethiopia are created with the best quality arabica coffee beans from the most selected estates around the world. A tantalising combination of premium and specialty grade coffees from selected origins. Roasted to a medium degree to highlight the acidity and aroma of mix berry. Preserving the body of the coffee at the same time, the silky and velvety body upgrade the sweetness of the coffee. Therefore, we can taste caramel and honeycomb sweetness in the middle and there would be a floral and clean finish at the end..
